

NAIT pair cook way to Freshwater Fish Scholarship

FOR IMMEDIATE RELEASE
JAN 31, 2011

WINNIPEG – Freshwater Fish Marketing Corporation is proud to award its Northern Alberta Institute of Technology Scholarship to two talented aspiring chefs.

Casey Bond and Justin Frank received the honour after creating the best appetizer with the use of freshwater fish at the school's annual Toque Demagny Competition.

Bond, a second-year Culinary Arts student, and Frank, a first-year Culinary Arts student each received \$250 towards their academic efforts from Freshwater Fish Marketing Corporation after creating a delicious Butter Poached Pickerel dish.

"Casey and Justin impressed judges and their classmates with their creation and we're proud to support their talents and innovation," says Freshwater Fish President and CEO John Wood.

"At Freshwater Fish we're always looking at new ways to expand our reach and use our products, and pairing with NAIT allows us to do just that while at the same time promoting education and helping out a few young culinary artists."

NAIT pairs first and second year Culinary Arts students into 12 teams for the annual Toque Demagny Competition named for a popular design of chef's hats.

The teams compete to create the best three-course meal, consisting of appetizer, entrée and dessert. Each team prepares all three courses for eight, plus two extra servings of each course for display and judging. As part of this highly regarded event, teams are also graded on kitchen organization, cooking skills, presentation and creativity.

Freshwater Fish Marketing Corporation is a Crown corporation that purchases, processes and markets all freshwater fish caught for commercial sale in western Canada. Visit www.freshwaterfish.com for more information.
